ALABASTINE CO., Grand Rapids, Mich.

# ALABASTINE

The Only Durable Wall Coating.

READY FOR USE BY MIXING IN COLD WATER.

---

## WHAT ALABASTINE IS.

Alabastine is the original and only durable wall coating on the market. It is entirely different from all kalsomine preparations. Alabastine is made ready for use in white or twelve beautiful tints by the addition of cold water. It is put up in dry powdered form, in five-pound packages, with full directions on every package.

---

## WHAT "KALSMINES" ARE.

Kalsomines are cheap and temporary preparations, manufactured from whiting, chalks, clays, etc. They are stuck on the walls with decaying animal glue. Alabastine is not a kalsomine. It is a rock base cement, which sets, and it hardens with age. It can be re-coated and re-decorated without having to wash and scrape off its old coats.

---

## THE BEST WALL COATING.

Alabastine takes the place of scaling kalsomines, wall paper and paint for walls. It can be used on plaster, brick, wood or canvas, and a child can brush it on. It is cleanly, healthful and economical. Every owner of a building should use it. Ask your paint dealer or druggist for card of tints, and write for free copy of our paper, "Alabastine Era."

---

## CHURCHES AND SCHOOLHOUSES.

The interior walls of churches, schoolhouses and all public halls should never be coated with anything but the durable and pure Alabastine. So evident has this fact become, that hundreds of tons are used annually for this work. The genuine Alabastine does not rub or scale off. It is cleanly during the long period of its usefulness.

---

## THE FLATTERY OF IMITATION.

Established in public favor by the test of time, Alabastine has many imitations. None of them can prove their durability as Alabastine has done. See that you get Alabastine in five-pound packages, properly labeled. Beware of a large four-pound package of light kalsomine, sold to dealers for four pounds and offered to customers as a five-pound package.

---

## REJECT THE "JUST AS GOOD."

The dealer who tells you that he can sell you the "same thing" as Alabastine or something just as good, either is not posted or is trying to deceive you. In offering something he has bought cheap, and is trying to sell on Alabastine's demands, he may not realize the danger to himself as well as to you. Beware of all new substitutes
